PROJECTS

Portfolio : (HTML, CSS, JS)

- My personal website. Without any framework only using HTML, CSS, and JavaScript to handle the themes and everything.

E-commerce : (React.js, Redux)

- One of my best projects with react, I used redux toolkit to fetch the data from the API, bootstrap for design, and used a JWT authentication so you can only have access with the given username and password.

Quiz App : (React.js, Redux)

- Little advanced app using Trivia DB, MUI for design, redux to manage the state, and a custom hook for the API requests.
