SUMMARY

Highly skilled Frontend Developer with almost one year of work experience in developing and implementing web applications, utilizing version control systems, capabilities to produce projects that exceed user expectations, and staying up-to-date on emerging web technologies.

EDUCATION

Helwan University | 2019 - 2023

Cairo, Egypt

Bachelor's degree in Computer Science

EXPERIENCE

Frontend Developer

Tanta, Egypt

Camp Coding | Oct 2023 - Present

- Working with clients and collaborate with a team of designers and Backend developers to meet all projects goals and requirements
- Created multiple and fully responsive web applications for mobile and desktop devices using React.js and Next.js as well as using HTML, CSS and JavaScript

PROJECTS

Portfolio : (HTML, CSS, JS)

- My personal website. Without framework only using HTML, CSS, and JavaScript to handle the themes and everything.

E-commerce : (React.js, Redux)

- One of my first projects with react I used free API and Redux toolkit to fetch the data, and used Authentication token so you can only have access with the given username and password.

Quiz App : (React.js, Redux)

- Little advanced app using Trivia DB. With MUI for design, redux to manage the state, and a custom hook for the API requests.

To-Do App : (React.js)

- Simple web application stores your to-dos on the local storage using all the crud operations as you can add, edit or delete.
