# Mostafa Mahmoud

Front-End Developer

---

Alexandria, Egypt  .  +20-120-685-6251  .  m2ostafa2000@gmail.com  .  <u>LinkedIn</u>  .  <u>Portfolio</u>

---

Highly skilled Front-End Developer with a solid foundation in Computer Science and Web development technologies. A good experience in developing and implementing web applications, capabilities to produce projects that exceed user expectations, utilizing version control systems, and staying up-to-date on emerging technologies.

## Experience

**Front-End Developer**                                                           **March 2024 – April 2024**
Camp Coding                                                                            Tanta, Egypt

- Collaborated with a team of designers and backend developers to achieve the goals of each project.
- Created multiple responsive web applications for mobiles and desktops using React.js and Next.js as well as using HTML, CSS and JavaScript.
- Maintained existing web applications and working with clients as we created many projects for clients.

## Courses

**Front-End Development**                                                         **August 2023 – January 2024**
Route Academy                                                                          Cario, Egypt

- Learning Front End from scratch and general understanding of Web development process.
- Created multiple responsive web applications at each level of the course starting with only HTML and CSS all the way to React, Next.js, handling APIs and important libraries.

## Education

**Bachelor of Computer Science**                                               **October 2019 – June 2023**
Helwan University                                                                      Cairo, Egypt

## Projects

**My Portfolio** / HTML, CSS, Bootstrap, JavaScript                          <u>View website</u>

- My personal website contains all the information about me, my projects and everything.
- Used pure JavaScript without any frameworks and used bootstrap and CSS for styling.

**E-commerce** / React.js, Redux                                                  <u>View website</u>

- Used APIs from dummyJSON website, Redux toolkit to fetch the data and store it, and bootstrap.
- Used token authentication (JWT) so you can only have access with the given name and password.

**Quiz website** / React.js, Redux, MUI                                          <u>View website</u>

- Little advanced quiz app as you can choose the subject, the difficulty and the number of questions.
- Used APIs from Trivia DB, Redux to manage the state and used a custom hook for the API requests.

**Cars website** / Next.js, TypeScript, Tailwind                              <u>View website</u>

- Used APIs from RapidAPI and API Ninjas, provides all the details about available rental cars.
- Used server-side search and filtrations. Used Headless UI and Tailwind CSS for styling.

## Skills

- HTML . CSS . JavaScript . Bootstrap . React.js . Next.js . TypeScript . Redux . Context . jQuery . SASS . Tailwind RESTful APIs . Git . GitHub . Unit Testing . Responsive design . Problem solving . Microsoft Office . Adaptability Team collaboration . Time management . Scalability.

## Languages

- English (Fluent)
- Arabic (Native)
